Public Statement

The Australian National Imams Council (ANIC) strongly condemns the recent firebombing of a childcare center in Maroubra and the vandalism of properties in the Eastern suburbs of Sydney. These acts of crimes have no place in our society and must be condemned unequivocally. The perpetrators must be held accountable for their actions.

It is essential that all Australians, regardless of their faith, ethnicity, or color, live in safety and without feeling threatened or intimidated.

ANIC firmly rejects any form of crime that targets any community.
